活動報導活方或容簡)	On the 9th of November 2022, the main presenter and organizer, Doctor Tracy Lee, a chair of the Language Teaching and Language centre, gave a speech regarding the EMI Teaching Training for an hour (from 12:00 to 1:00 pm), and the moderator is teacher Kim Phillips. Although the midterm examination week, many audiences came and listened to the seminar. The orientations of the presentation are eye-opening and getting ready for the first step, let's think before we train, classroom English and real English Training: What do you need more or most? The speaker precisely uttered each step with her own teaching experiences and suggested how to conduct the classroom by using some phrases or sentences in order to meet the criteria of the EMI standard. One of the best examples is asking students from the right side of the classroom to interact with the students from the left, which is the basic effective strategy that should be implemented in the conversation lab class. In the end, she entitled a few minutes for question and answer, and the presentation was jubilantly terminated with an intriguing conversation.
